

Hydrogen Gas Generating Cells

Product Overview

Article Designation	Article No.	No. of Cells	Typical Gas Output (ml)*	Volume of Article (ml)	Diameter (mm)	Height (mm)	Weight (g)
V 150 H ₂ MF	24690 101 501	1	150	0.55	11.6	5.5	1.65
2/V 150 H ₂ MF SK BE**	24690 302 501	2	300	1.2	11.9	11.2	3.4

* at 20°C, 1013 hPa
 ** Assembly: SK = Stack up, BE = Bare (No final sleeve)

Other cell assemblies on request, e.g. for ~ 1 l hydrogen

Gas Generating Cells

- for small innovative automatic dispensers
- for portable dosing solutions
- for easy short, medium or longterm drug-delivery
- for intelligent packaging

Applications

- Medical, healthcare, industrial and consumer area
- Drug delivery systems
- Ultra-pure hydrogen H₂ use
- Mechanical movement
- Gas use
- Animal health
