

This declaration is valid for Hydrogen Gas Generating Button Cells manufactured by VARTA Microbattery. For other cell or battery types please refer to the applicable declaration.

In the sense of REACH Regulation (EC) No 1907/2006 these products are articles (not chemicals or mixtures). Hydrogen Gas Generating Button Cells are intended to release a substance (hydrogen gas) under normal and reasonably foreseeable conditions of use. The substance will be registered within the time limit of REACH.

Hydrogen Gas Generating Button Cells manufactured by VARTA Microbattery do not contain any substances above 0.1 % (w/w) per product that are listed on the “[Candidate List](#)” of substances of very high concern (SVHC), as updated on 2020-06-25.

This includes assembled battery versions of these types. Please refer to the respective Safety Data Sheets (MSDS) as the supporting documents.

These articles do not contain any substances above 0.1 % (w/w) per product that are listed in the current edition of Annex XIV of the REACH Regulation (“[Authorisation List](#)”).

These articles are in conformance with the current edition of Annex XVII of REACH (“[List of Restrictions](#)”).

The above statements include packaging materials.
